

QUALITY POLICY

Energenics Europe Ltd is committed to providing high quality products and customer support which fully satisfy our customer's requirements and meet all legal and regulatory commitments. The Organisation is driven by strong customer focus and continuous improvement of our BS EN ISO 9001:2015 Quality Management System.

The company aims to build a mutually profitable relationship with our customers, ensuring their long-term success through an understanding of their needs and through technology innovation. In pursuit of business development and customer satisfaction, Energenics will continuously seek and evaluate potential new opportunities ensuring that implementation of any such opportunities are fully embraced within the quality system.

Senior Management endeavour to show leadership and responsibility for implementing, monitoring, enhancing and evaluating the effectiveness of the Quality Management System. Quality objectives defined in the Business Review support strategic direction and contribute to the success of the company.

The company ensures that any manufacturing or service partners provide a service which is compatible with our quality system. All Energenics personnel are responsible for the quality of their work and are trained and supported to perform their roles. Staff employ best preventative practices and ensure reliable risk management to produce work and provide a continually improving service of which we can be justifiably proud.
